Re: Adaptive Management Provisions in effect for the 2020/21 hunting season

Dear Co-Chairs Burdek and Taylor,

I am writing to follow up on the Departments briefing to the Board in February that outlined the adaptive provisions intended to be in place for the 2020 harvest season.

The attached determinations and summary detail the measures that are in effect for this year and will remain until varied through a subsequent adaptive determination.

I thank the Board for their review and recommendations on this years adaptive management measures. Do not hesitate to contact me should you have any questions.

Sincerely,

A handwritten signature in blue ink, appearing to read "Ryan Hennings". The signature is stylized and cursive.

Ryan Hennings
Director, Fish and Wildlife Branch.

Encl.,
