Dear Mr. Dickson

We would like to thank you for your letter regarding the 2019/ 2020 proposed regulation changes. While we won't be able to address all of your questions and concerns in this letter, we will endeavour to do so in the near future.

Additionally, we welcome you to join us at one of our upcoming Board meetings to discuss your concerns in greater detail. If you are so inclined, our next Board meeting will be from April 28th - 30th, 2020. You are welcome to give a short presentation to the Board regarding your concerns. Please contact Graham Van Tighem to arrange a time that is mutually suitable.

Your letter raises many important points about long-standing issues relating to conservation in the territory, specifically, with regards to the efforts being made to rehabilitate ungulate populations. We agree that the UFA is not being fully implemented, and we are consistently working towards fulfilling that objective.

Thank you again for your continued interest in fish and wildlife conservation. We look forward to discussing these topics with you in-person.

Sincerely,

John Burdek, Chair
