Date of Submission:

1. What change are you proposing?

Explain what you are proposing and identify the issue you believe needs to be addressed. If possible, identify which regulation this proposal would change.

Yukon Wildlife Act & Fishery Regulation Change

Proposal form

2. Why is this change required?

Please provide a strong rationale for your proposed change, indicate if this change is urgent or time-sensitive, and outline who or what would be affected by this change.

Yukon Wildlife Act & Fishery Regulation Change

Proposal form

3. Please provide adequate information (such as relevant knowledge, research, and experience) to support the proposed change.

Adequate information includes scientific, local, and/or traditional knowledge. Please indicate sources for this knowledge, where possible.

Yukon Wildlife Act & Fishery Regulation Change

Proposal form

4. Who have you discussed this proposal with, and what was the result of this discussion? We expect you to discuss this proposal with Environment Yukon (i.e. a biologist, a conservation officer, etc.) or the Board before submitting a proposal.

Discussion is required because considerations you are unaware of may affect this proposal (i.e. existing management plans, best practices guidelines, or Final Agreements). Environment Yukon or the Board will also identify whether this proposal has been previously submitted.
