

Bison hunters, we need your help to gather bison DNA samples!

Before you head out bison hunting, pick up a **bison biological sample kit**, available at:

- Department of Environment offices in Whitehorse and Haines Junction
- The Yukon Fish and Game Association
- The Yukon Fish and Wildlife Management Board.

The instructions and all of the tools you need are in the kit.

These voluntary samples will help biologists understand the health of the **Aishihik Wood Bison Herd** and inform bison management decisions. Thank you for your participation.
